Wheat was extremely erratic to-day The changes in prices were not only frequent, tut at times violent. At first there was a drop owing to heavy realizing sales, reports of rains in the extreme Northwest, liberal world's shipments, disappointing English cables, foreign selling and more or leas short selling. But on the decline there was a rush to buy which quickly carried prices upward. The showers in the Northwest were very light and were north of the American line, and crop advices were about the worst received since the drought set in. Northwestern markets were strong. The Northwest bought at Chicago and early sellers tried to cover. H. W. Grasse, Signal Service official at Moorehead, Minn., wired Molntyre & Wardwell: "Dry and hot. No rain in sight. Wheat in valley gone. Two States less than 15 per cent crop. Flaz in same fix unless rain ason." Minnespolis rose 314c. Parts advanced 35 to 40 centimes for wheat and 35 to 50 for flour; Berlin rose 35c. at Chicago and in London flour at one time 5 to 9d. higher. On passage there was a decrease of 720,000 bush. Receipts were comparatively light, primary markets getting 716,639 bush against 1,721,725 last year. But it was a day of realizing and the general tendency of prices was downward. There was some recovery from the lowest figures, owing to covering and some new outside buying. Showers were predicted for northern Minnesota and North Dakota. The unexpectedly 1-rge increase in the visible of 1,348,000 bush receipts were \$,762,000 bush. against 7,718,000 in the previous week and 7,571,000 last year. Outside were moderate at 8,810,000 bush, against 4,779,000 in the previous week and 5,320,000 bush, in the visible decreased 53,000 bush. FLOUR—There was a pretty good inquiry, but actual transactions were not large as holders were firm and buyers were seeking concessions.
